

# Good and Evil

## parts & lyrics

### main 1

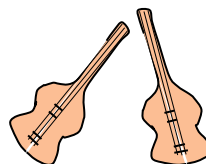

I was around in a lonely summer day  
People strolling along the beach  
Children playing in the sand  
And suddenly I heard a voice in my head

### mid-part 1

A **goblin** sat right behind my ear  
He took his words right out of his pencil case

And he just told me to liberate myself  
And he just encouraged me to be free

guitars & cellos

### main 2

All the fears are nothing compared to freedom  
What the hell did this goblin in my head?  
Children playing in the sand  
And suddenly I heard a voice in my head

### chorus 1

Is there a world – of ouphes and goblins?  
Is there a world – of good and evil?

### break

Is there a world? Is there, is there?  
Is there a world of good and evil?

### mid-part 2

A **goblin** sat right behind my ear  
And he just told me to liberate myself

### chorus 2

In a suspense of magic – of good and evil

**Wahaa wahaha ...**

Do they blurt out – the sooth, the hidden verity?  
Is there a world – of good and evil?

... of good and evil?
