

While I watch your Smile

parts & lyrics

main 1

You talk about squares – and abstraction

You throw your hair back – and look at me
Why do so many let themselves – be dictated by so few?

pre-ch 1

And I see your face – floating over
escaping from a black mirror

chorus 1

Maybe all the time – you don't dance on your own
Should we just follow – our hearts?

Are we gonna play the old game?
Is this where the mystery comes up? -- ahaa

main 2

Nice, but I don't like apocalyptic proclamations
We're here now, in the "here and now"!

pre-ch 1

And I feel the magic – here and now
The look of your eyes – what are we doing?

chorus 2

Maybe all the time – you don't dance on your own
Should we just follow – **should we follow** – our hearts?

Are we gonna play the old game? **Are we gonna play-ay**
Is this where the mystery comes up?
While I watch your smile – ahaa

interlude

Soo-oo-oo ...

What can we say? What can we believe? What can we do?

Do you realize all the patterns? What strikes you? What strikes you?
You shake your hair – do you really know where we are here?

chorus 3

While I watch your smile – I feel remote controlled
Can you see that shape around us?

Are we gonna play the old game?
Is this where the mystery comes up?
While I watch your smile – ahaa

Maybe all the time – **maybe all the time**
Should we just follow – **should we follow** – our hearts?

Are we gonna play the old game? **Play-ay**
Is this where the mystery comes up?
While I watch your smile – ahaa

outro
