

Jenny

parts & lyrics

main 1

Well, to be frank about it
I've decided to make a change

What was I getting of life?
all day I worked at Macy's

At night I soaked my feet
in Epsom salt – she said

pre-chorus

My friend Sara instead
is common and ignorant

chorus 1

And it was her – who didn't want to waste her time
and it was her – who avoided anything intellectual

main 2

Her hair was waved and arranged
in small curls over her neck

She had discarded her eyeglasses
and when she walked she had a new sort of swagger

I was sensitive and refined
but what was it good for? – she said

pre-chorus

My friend Sara instead
is common and ignorant

chorus 2

And it was her – who didn't want to waste her time
and it was her – she avoided anything intellectual

interlude 1

And my friend Sara caught the doctor
and **Jenny** said: "I make a change!"

chorus 3

And it was her – who didn't want to waste her time
and it was her – who avoided anything intellectual

interlude 2

And I knew at once from the glance she gave me
that our time was nearing its end

chorus 4

And it was her – who didn't want to waste her time
and it was her – who avoided anything intellectual

she avoided anything
and it was her
