

Magic in the Room

parts & lyrics

main 1

She looks over at me – “the coffee will be ready soon!”
She twirls the cups and cutlery

There were many emergencies – a very busy day
I tried to raise my voice

pre-ch

“It can’t go on like this!”
First she pretends not to hear it

chorus

And then she turns around
She looks into my eyes
So long and intense

She doesn’t move
Time freezes – face to face
Strange magic in the room
magic in the room

main 2

And slowly she sits down – her mouth open like paralyzed
Sure I remember our nights on the beach – we were in love

chorus

And then she turns around
She looks into my eyes
So long and intense – long and intense

She doesn't move
Time freezes – face to face
Strange magic in the room
Magic in the room

interlude

But that was long ago – a happy time in the past
What do her eyes say? What is she feeling right now?

We can't carry on like this!

chorus

And then she turns around
She looks into my eyes
So long and intense – long and intense

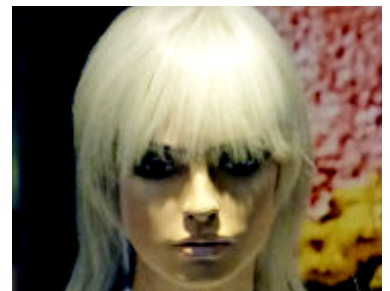

She doesn't move
Time freezes – face to face
Strange magic in the room
magic in the room

solo

chorus

And then she turns around
She looks into my eyes
So long and intense – long and intense

She doesn't move
Time freezes – face to face
Strange magic in the room
magic in the room
