

# Have they been among us?

## main 1

Deria is currently browsing her aisles  
She's plus size, but they really have all sizes

Deria is buying new shoes today  
Tabea is trying these new jackets

## pre-ch 1

They really look great and modern  
Tabea is buying herself a new jacket

## chorus

And that's where we are – hey hey yeah  
Have they been among us – for a long time?  
Are they so good disguising themselves?  
Have we gotten used to them?

## main 2

The mayor opens the new cinema  
Finally we have a new film and culture venue

The mayor delivers his speech looking thoughtfull  
The athlets train on the small quare

## pre-ch 2

Some sweat profusely, some not at all  
Some perform very strange, almost impossible

parts & lyrics

chorus

And that's where we are – hey hey yeah  
Have they been among us – for a long time?  
Are they so good disguising themselves?  
Have we gotten used to them?

break

Is the Drake equation truly complete?  
And above all: Can we further refine the Drake equation?

We wanna know:  
How likely are Aliens?  
Or is it just imagination?

This is the  
Drake-equation

$$N = R^* f_p n_e f_i f_c L$$

And we are essentially alone in the universe?

in the universe?

chorus

And that's where we are – hey hey yeah  
Have they been among us – for a long time?  
Are they so good disguising themselves?  
Have we gotten used to them?

Solo acoustic guitar m6

chorus

And that's where we are – hey hey yeah  
Have they been among us – for a long time?  
Have they been among us?
